Patent us7544770 - multilayer films, coatings, and

Disclosed herein is a multilayer film comprising two or more layers of polyelectrolytes, wherein adjacent layers comprise oppositely charged polyelectrolytes.

Simulink - simulation and model-based design

Simulink is a platform for multidomain simulation and Model-Based Design of dynamic systems. It provides an interactive graphical environment and a customizable set

Transfer matrix method for optics in graphene

A transfer matrix method is developed for optical transmittance and absorbance of double-layer graphene as a function of the green and red lines

Patent us20030152703 - production of chemically

This concept may be applied to various functional polymer and substrate systems as well as various thin film deposition techniques.
